

123Place for ornamental marine fish best collection form Indonesia, exotic saltwater fish and rare marine fish our stock from around Indonesia sea. We have supported farm in Jawa, Madura, Bali, Sumatra, and Sulawesi. and for last quarantine and packing place for shipment, we base on Banyuwangi-Indonesia.

123For the arrest which came from the wild, we have some standard fishing using nets without using potassium. This is our concern for the environment other than that the fish will be healthier. For some hard corals and soft corals which we have started to Cultured we also do to maintain the quality of cotals itself and reduces the decision on wild. Especially for Acropora we have brought from different parts cultured world for her in Indonesia in cooperation with farmers coral.

123We only select healthy and happy fishes, corals, and inverts. With the experience we have, we guarantee satisfaction for our customers.

123Thank you for visiting our website and we guarantee to supply you with healthy and happy fish.

123Our highly prioritizes sustainable working relationship, for this we do a discount program for customers who have long worked with us or to customers who make purchases periodically, based on your list of prioritize items.

Best regards,  
Coralpond
